

The Future of Transit

We are creating new ways to welcome a growing, diverse community with expanded transit access and new shared moments of wonder and delight. Connecting us to the experiences that bring us together – that's what LCRT is all about.

Now Arriving: Final Design!

Lowcountry Rapid Transit is one step closer to reality - and receiving hundreds of millions in federal funding.

Final design work on this transformative project is underway. Check out the timeline below for more details.

Explore the Possibilities

Lowcountry Rapid Transit is a modern bus rapid transit system that will connect communities in our region like never before. Whether you're traveling on foot, on bike, or on the bus, LCRT welcomes you.

LOWCOUNTRY RAPID TRANSIT | BCDCOG

About the System

Operating mostly in dedicated bus lanes, LCRT will provide safe, reliable, and low-cost connections between Ladson, North Charleston, and Downtown Charleston.

Reliable Modern Service

LCRT is a high-quality transit option that delivers fast, comfortable, and cost-effective service, running every 10 minutes at 20 stations across the region.

Accessible to Everyone

LCRT is inclusive of all modes of travel - transit riders, bicyclists, and pedestrians. Its design is ADA-compliant and includes enhancements to crosswalks and shared-use paths along the corridor.

Easy to Use and Enjoy

Whether you're a commuter, visitor or live along the route, LCRT will connect you to grocery stores, employment centers, healthcare and entertainment.

Creating the connections that bring us together.
