→ You could get where you want to go faster by avoiding traffic congestion.

→ It was easier to walk or bike safely to places in our community.

→ You had another transportation option to easily get to work or school.

→ You spent less money on gas.

Explore Lowcountry Rapid Transit

What is Lowcountry Rapid Transit?

LCRT is a modern bus rapid transit system that will connect communities in our region like never before. Operating mostly in dedicated lanes between the Fairgrounds in Ladson, serving North Charleston on Rivers Avenue and connecting to the WestEdge in Downtown Charleston, LCRT will offer a safe, reliable, low-cost and a new mobility alternative to tens-of-thousands.

South Carolina's first mass transit system!

→ RELIABLE, MODERN SERVICE

LCRT is a high-quality transit option that delivers fast, comfortable and cost-effective service, running every 10 minutes at 20 stations across the region.

→ ACCESS FOR ALL

LCRT is inclusive to all modes of travel - transit riders, bicyclists, pedestrians and vehicles - and its design includes enhancements to crosswalks and multi-use paths along the corridor.

→ CONNECTIONS TO NECESSITIES AND OPPORTUNITIES

Whether you're a commuter or live along the route, LCRT will connect you to grocery stores, employment centers, healthcare and entertainment.

Among the most miles of dedicated lanes in the US
