Remaining Committed to Active Engagement in the Corridor

The LCRT Team hosted a booth at the **2022 Black Expo** event on April 12 at the North Charleston Convention Center. This event had great attendance and plenty of positive feedback was received from the public. Attendees were excited about the new connections and are looking forward to community connections like we've never seen before. Additionally, many attendees asked about future expansions to nearby cities. The team also met with the **Dorchester Terrace** community on April 14. This group was especially interested in learning more about the safety and accessibility features of the project.

Photographed: LCRT Outreach Specialist *Morgan Grimes* answered questions and received feedback from the public at the Black Expo.

Photographed: The LCRT team met with the Dorchester Terrace community on April 14.

Our outreach team visited 19 locations this month to meet with communities and businesses along the corridor, including:

Community Feedback is Important to Us

Nearly 14,000 residents live and work in the Lowcountry Rapid Transit Project corridor. With the projected population growth continuing to rise, the need for improved commuting options is clear. We are continuously working with community members to get their feedback on the project.
